

FOR IMMEDIATE RELEASE

Celebrated Skateboarder and Street Artist Glen Fox Debuts First Multi-Format Collection

Renowned Jersey street artist and professional skateboarder Glen Fox has announced the release of his latest collection of work 'Mind's Eye'. In collaboration with SUPERLUXE & Partners, 'Mind's Eye' will mark Fox's first ever multi-format collection of works, available in digital forms, premium prints, and as one-of-a-kind originals.

SUPERLUXE is an international art platform revolutionising the way art is authenticated, owned and experienced. Fox now joins a highly curated and prestigious group of artists represented by SUPERLUXE, including acclaimed Columbian contemporary artist Federico Uribe.

"Mind's Eye is a mercurial experience that I think will be distinctly unique for each viewer. The collection is notably different to my past work which is often visually complex but far less perceptually evocative," said Glen Fox.

Fox's paintings on canvas have been exhibited internationally in Paris, Serbia, Osaka, Jersey, London and Melbourne. Notably, his work has been sought after and used in the campaigns of major sporting brands including Adidas and ASICS.

"We have known Glen as an artist for a few years now, having worked with him originally in 2022. Over the years street art has emerged as one of the most dynamic and influential genres in contemporary art. Artists like Glen Fox have strong cultural resonance and we are delighted to expand our portfolio through this exclusive collection" said James A Matthewson, Founder and Chief Executive Officer of SUPERLUXE & Partners.

Mind's Eye is now available on the SUPERLUXE platform, with some works also set to be displayed at SUPERLUXE's upcoming artist showcase on Thursday 27 March. While 'Minds Eye' may be ever changing perceptually, through SUPERLUXE collectors can trust it will be verified forever.

About SUPERLUXE & Partners

Leveraging the use of cutting edge blockchain technology, SUPERLUXE is providing both artists and collectors with unparalleled transparency and security. As a platform representing fine art to a global audience, SUPERLUXE is dedicated to ensuring the continued provenance and lasting protection of all parties. Dedicated to mirroring the versatile nature of art, all Collections represented by SUPERLUXE are multi-format, supporting the continually evolving way that people experience art. This approach means that even physical works are certified and tagged with tamper-proof digital records, allowing for transparent and seamless exchanges between artists and collectors.
