SUPERLUXE & PARTNERS curates a reflection of the ever-evolving landscape of contemporary fine art.

We work with our artists globally and exclusively, investing in them and their collections long term.

We build their brands and their 3 Rs: Reputation, Reach and Revenues, freeing them up to do what they do best - produce beautiful Art.

SUPERLUXE sits at the intersection of traditional fine art and blockchain / web3 innovation. We understand the shifting aesthetic trends, the enduring value that art provides and the seismic changes technology has opened up for the art world.

The Fine Art market has increasingly proven its value as a long-term investment. Unlike other assets, art's worth is not solely determined by immediate trends or market fluctuations. It is driven by rarity, emotional resonance and the timeless ability of art to evoke meaning and transformation. When carefully chosen, works of art can offer both personal fulfilment and financial appreciation.

As you navigate through our Collections, please think of art not just as a fleeting experience, but as an investment that enriches both your life and your future.

Our artists have created works that resonate deeply with the world we live in, and as such, they are an embodiment of the cultural wealth of tomorrow.

UNBREAKABLE LEGACY by DEEP

From inception to completion, this special glass sculpture took over 60 hours to complete.

Every hammer, every chip and crack was strategised and perfectly placed, to recreate this iconic image of Lionel Messi accepting his most recent Ballon D'Or Award.

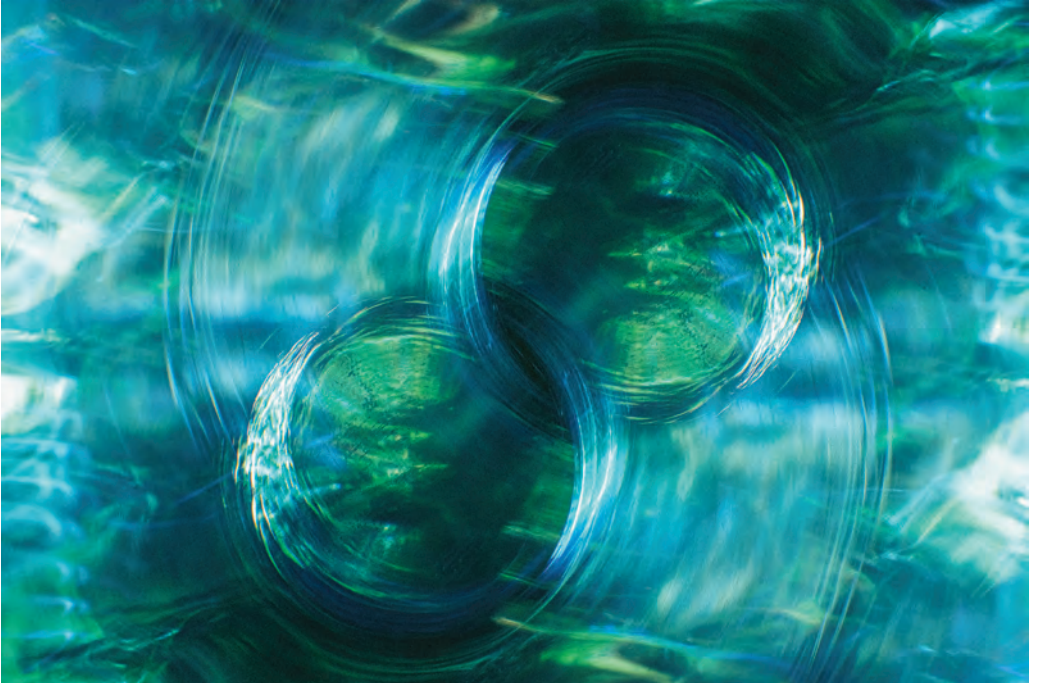

As the figure of Messi started to take shape, the real challenge lay in the representation of his Ballon Dor award.

Its reflective walls bending the areas surrounding Messi as he was being photographed made it extremely difficult to get right. With steady breathing and consistent focus , DEEP did the image a true justice. This was, in many ways, his Everest.

UNBREAKABLE LEGACY is presented exclusively by SUPERLUXE as a beautiful 1 or 1 Original artwork and Limited Edition Fine Art Prints, printed in London by our master Gallery & Museum printer, as well as on our Exclusive Art Glass, in Numbered Editions of 1 to 295 ONLY worldwide.

Influenced by music, nature and technology, each piece captures a fleeting moment of subconscious expression - where the familiar dissolves into the surreal.
